**Integrated M.C.A. (Sem.-VI)  
Examination, June-2025**

**IMCA-602T**

**JAVA Programming**

**Time allowed : Three Hours**

**Max. Marks : 70**

**Min. Marks : 28**

*This question paper contains two sections as  
under :*

**Section-A****Max. Marks-20**

This section will have 10 questions, having 02 questions from each unit with no internal choice. Answer in about 20 words. All questions will have equal marks. (10×2=20)

**Section-B****Max. Marks-50**

This section will have 10 questions, having 02 questions from each unit, one question to be attempted from each unit. Words limit approximately 400-500 words. Questions may have sub divisions. All questions will have equal marks. (10×05=50)

**SECTION - A**

- 1 (i) What is Java? Write any two advantages of Java.
- (ii) What do you mean by interface in Java?
- (iii) What is synchronization?
- (iv) Define a servelet.
- (v) Define Java overloaded constructor.
- (vi) What is object reference variable?
- (vii) State the use of static keyword.
- (viii) What are the operators available in Java?
- (ix) What are the advantages of multithreading?
- (x) Differentiate between variables and constant in Java.

2

[Contd...

**SECTION - B****UNIT - I**

- 2 What are control statements in Java? Explain different control statements with relevant example.

**OR**

Write short notes on the following :

- (i) JVM and Byte code
- (ii) Data types.

**UNIT - II**

- 3 How to declare and initialize string in Java? Explain different string handling functions with examples.

**OR**

Write short notes on following :

- (i) Keyword
- (ii) Garbage collection –
- (iii) Constructors
- (iv) Overloading methods
- (v) String buffer.

**UNIT - III**

- 4 What do you mean by packages? Describe the steps for creating packages in Java.

**OR**

UA-7448]

3

[Contd...

Differentiate the following and support with example :

- (i) Abstract class and Interface
- (ii) Inheritance and Aggregation.

### UNIT - IV

- 5 Explain multithreading concept in Java. Write a program showing multiple threads working upon single object using synchronized key-word.

OR

What is exception handling in Java? Explain the use of try and catch block in Java.

### UNIT - V

- 6 What is the relationship between an event listener interface and an event adapter class. Explain it.

OR

Explain life cycle of an applet with suitable example.
