

Roll No. 230162

Total No. of Pages: 02

Integrated M.C.A. (Semester - VII)
Examination Dec. - 2025
IMCA - 702T
Advanced JAVA Programming

Time Allowed: Three Hours

Maximum Marks: 70
 Min. Marks: 28

This question paper contains two sections as under

Section - A**Max. Marks-20**

This section will have 10 questions, having 02 questions from each unit with no internal choice. Answer in about 20 words. All questions will have equal marks. (10×02=20)

Section - B**Max. Marks-50**

This section will have 10 questions, having 02 questions from each unit. One question to be attempted from each unit. Words limit approximately 400-500 words. Questions may have sub divisions. All questions will have equal marks. (10×05=50)

Section - A

- Q.1. i) What is the difference between Arrays and Array List ?
- ii) What is Regular expressions and their use in Java ?
- iii) What is the difference between AWT and swing components ?
- iv) What is hashing ? Why is it used in Hash Map ?
- v) What is an event, event source and event listener in Java ?
- vi) What are adapter classes ?
- vii) What is the role of Driver Manager in JDBC ?
- viii) What is a Result Set and statements in JDBC ?
- ix) What is a Deployment Descriptor ?
- x) What is a Servlet container ?

P.T.O.

Unit-I

- Q.2 Explain utility methods of the Arrays class with example. Give example for each method.

OR

What is stream in Java ? Explain different types of standard streams in detail

Unit-II

- Q.3 (a) Explain component class and its important methods in Java. 5
(b) Describe different types of components in component class in detail. 5

OR

Describe different layout Managers in java :

- (i) Flow layout
- (ii) Border layout
- (iii) Grid layout
- (iv) Grid bag layout

Unit-III

- Q.4 (a) Explain event – Driven programming in Java with suitable example. 5
(b) Describe the event handling mechanism in Java.

OR

- (a) Explain event sources and event listeners with examples. 5
(b) Explain the delegation model of event handling with neat diagram. 5

Unit-IV

- Q.5 Explain the JDBC Architecture with a neat diagram. Explain the steps involved in establishing JDBC connection.

OR

What is JDBC driver ? Describe different types of JDBC drivers in detail.

Unit – V

- Q.6 Define a web application and explain the architecture of a web application with a neat diagram.

OR

Define Java Servlet and explain the servlet life cycle in detail.
